

EOC Daily Emergency Management Report

Date: 4/15/2013
Time: 11:30 AM ET
Report No: 099

Alerts & Warnings

FEMA National Watch Center at a Watch/Steady State level
National Terrorism Advisory System (NTAS) – No Current Alerts
Continuity of Operations (COOP) COGCON Level is 4
EPA HQ at Level 6 (Steady State)
EPA R6 REOC at Level 3 (extended response/single incident) for Mayflower, AR Oil Spill

EPA Headquarters Activities

ASPECT (Airborne Spectral Photometric Environmental Collection Technology) is available and operational, but the GPS receiver/software on the Line Scanner computer failed to properly collect data during the weekly system check. A replacement unit is scheduled to be installed on April 16. All other systems are fully operational.

Portable High Throughput Integrated Laboratory Identification Systems (PHILIS) labs and assets (located in Edison, NJ and Castle Rock, CO) are operational and available for deployment.

The ERT Trace Atmospheric Gas Analyzer (TAGA) (Edison, Las Vegas & RTP) & Mobile Command Posts are available for deployment.

Significant National Weather

A major winter storm will continue to move slowly across the Northern Plains today and produce snow across the Upper Mississippi Valley through this evening before moving into Canada. Over 15 inches of snow has already fallen in southern North Dakota and total snow accumulations of 6 to 12 inches are expected across Northern Minnesota.

Tropical Activity: There is no activity affecting U.S. territories.

Tornado Weather: There is a 2-percent chance of tornado activity today in portions of Texas, Oklahoma, Missouri, Arkansas, Illinois Kentucky and Indiana today.

Significant Flood Outlook: There is significant river flooding occurring in portions of North Dakota, Wisconsin, Missouri, Illinois, and Michigan. Significant flooding is likely or possible in other areas of these states as well as portions of Indiana and Iowa.

Critical Fire Weather: Critical Fire Weather is forecast today for portions of Texas, New Mexico, and Arizona.

Report of Incident Notifications

Poison Bait Cleanup, Elbert County, CO On April 13, the Colorado Department of Agriculture requested assistance from EPA Region 8 to conduct clean-up of improper application of Rozol prairie dog bait, which occurred in a residential section of Elbert County, CO (southeast of Denver). The Elbert County Sheriff's Office is assisting with contacting individual homeowners, and asking permission to access their properties, to remove the piles of bait left on the ground. Two EPA R8 OSCs were dispatched on April 13 with START and ERRS contractors to provide assistance.

Oil Tanker Roll-over, Grady, AL On April 12, 2013 a tanker truck carrying 7500 gallons of diesel fuel overturned on Highway 311. An EPA Region 4 OSC responded, coordinating with ADEM and the responsible party to develop a cleanup plan. Plan developed includes: free product collection, soil excavation, disposal and restoration. As of April 13, 2013, cleanup collection included: 2900 gallons of free product, 30,000 gallons of oily water, and 125 cubic yards of impacted soil. EPA OSC has transitioned oversight activities to ADEM, and demobilized from site.

There were 31 epaossc.org websites created and/or updated during this reporting period (4/12/13– 4/15/13).

Exercises / Pre-Deployments

Nothing to report.

Regional Daily Ops Status Report

Reported activities primarily represent NRC notifications with some state-level and other notifications to Regional Phone Duty Officers.
